Brisk, Ashes, First Whip and Cupidity the winning Choices-Anice Falls at the Post and Injures Jockey Collins - Brilliant Finish in the Closing Race of the Day. The spring meeting of the Queens County Jockey Club was continued at Aqueduct yesterday under less favorable auspices than sigpalized the opening on Monday. A track that promised to be fast and resilient as a cinder path was reduced to pasty mud by the steady rain of the morning hours, and although umbrellas were not needed after the second race, the atmospheric conditions remained decidedly uncomfortable. Few outside the "regulars" cared to fool with the weather clerk in his present erratic mood, but over 2,000 irrepressibles made the trip from Manhattan, Brooklyn and East New York and were compensated by some fine racing in which favor-

ites figured prominently. The programme was devoid of stake features but was well filled by the best of the sellingplate crop and as the track was pronounced sound under the surface, only six withdrawals were posted. Chief interest seemed to centre in the first race of the meeting around the the full circuit. It came fourth on the card and the incentive of \$500 added money brought out a lively group of six runners. Post Haste was installed favorite, while Hold Up, Tony Honig and Trumpet were also well backed. Mitchell took Hold Up to the front soon after fag fall and landed the son of Hanover an easy winner a length and a half in front of Trumpet, who shook off the others in the stretch and peat Tony Honig two lengths for the place. The favorite held his own in the leading division until a furlong from the finish, but tired under the whip and lost third place by a head. ome of the talent began well by selecting old Brisk to win the opening dash, but as many more pinned their faith to Zanone the two aged sprinters were sent to the post equal favorites. Zanone's behavior at the barrier was worse than ever, and after spoiling several breaks he whipped around as the flag fell. Primate set a stiff pace until well up the stretch, where Robert Metcalf caught him. Sparrow Wing then joined issue, and McJoynt came along with Brisk. The latter outfooted his field in the final drive and finished a length

came along with Brisk. The latter detections his field in the final drive and finished a length and a half in front of Sparrow Wing, who beat Robert Metealfa neck.

Favorite players again cashed in the second race, although this was a dash for comparatively unknown two-year-olds. The choice was ashes, a handsome black daughter of Tremont, and she found little difficulty in winning by three lengths. William Ack made a bold attempt to repeat his coup of Monday, but had to be content with second place, four lengths clear of Remsen, Clodhopper plicted the whole field for three furlongs, but failed to carry the clip further. Considerable uneasiness was caused at the start by the failure of Turney Bros. Anice to get clear of the barrier. She fell twice, and her rider Collins, was so badly bruised that it became necessary to send for an ambulance and have him removed to the Turney stable. The filly was withdrawn.

First Whip made it three straight for the plangers by easily capturing the dash out of the chute from the second choice, Gold Lack. Curdity rubbed it into the ring still harder by galloping away with the six-furlong event, but fracious came to the rescue of the pencillers in the sixth race after one of the most spirited finishes. The Walden filly was lengths away from Connie passing the ring, but Meloynt won on the poet. Summary:

was cold and raw and a drizzling rain fell at intervals. ature of the morning at Gravesend and Sheeps-Lead Bay was the grand showing made by Mr. Will-Whitney's horses. Trainer Tom Weish's division at Gravesend was in fine form. Isaac Valton, the high-priced son of Hanover and ida Waiton, was in particularly good fettie. The colt wation, was in particularly good letties, worked a half mile in 51% seconds. Two Imp Meddler coits were next put together, and they covered the same distance in about the same time.

Indian Frank McCabe was also busy with P. J. Dwyer's horses. Itali Time has grown into a nice horse and is genting a steady handicap preparation. Half Time went a mile with ease in 1.46%. Racing at Old Fimlico.

BALTIMORE, April 17 .- The racing to-day at Pimlico under the auspices of the Maryland Steeplechase Association attracted a fair sized crowd. In the first race, Chartle O. was a big favorite, with Frosty a close second. At the break Superfluity jumped front, but in the stretch both the favorites passed her, Charlie O. winning by two lengths. The second race also went to the favorite. Once More winning. The favorite was beaten in the third race. Marsian was selling at 3 to 10, but disappointed his followers. Sacket took the lead at the start and was never headed. A dark horse carried off the honors in the fourth. R. Kemstrom was a big favorite, but Black Jimmy, with Donohue up, ran a great race and won handily. The fifth was a walkover for Higher, Young Exile, the favorite, finishing fourth. Summary follows:

First Race—Three quarters of a mile; purse, \$150—Charlie O. (Farrel), even money, won; Frosty (Hayes), 8 to 5, second; Faelle (Smith), 8 to 1, third. Time, 1:20. 120.

Turf Notes.

LOUISVILLE, April 17.—John E. Madden suddenly started for Morris Park yesterday afternoon, taking with him all his horses, including Star Bright, his Kentucky Derby candidate. Madden did not think Star Bright had shown up well enough to start in the big stake. He is believed to have a wonderful two-year-old in Bobs, a Henry of Navarre celt that will have in the East this season. Madden announced that eighteen colts had been foaled at Hamburg Place, his stock farm, within the pastfew weeks. Most of them are by imp, Mirthful.

WITH THE TROTTERS.

Statistics of Harness Racing in 1899-Nearly 16,000 Trotters Now in the 2:30 List.

Statistics gleaned from the new "Year Book," which has just come from the press, present some interesting facts relative to the magnitude of the trotting-horse interest and its growth since 1885. When Vol. I. of the work was issued it contained summaries of all races, regardless of the time made therein. About 4,000 trotting and pacing contests were reported from 470 different tracks, with something like 5,000 different horses as starters. Nowadays only races in which 2:30 is made or beaten are reported. Of such contests there were in 1899 upward of 4,000 on 870 tracks, with nearly 9,000 different horses as starters. While 269 trotters were added to the 2:30 list in 1885, the number of newcomers last year was 883; and the complete list, which comprised only 2.155 trotters when the "Year comprised only 2.156 trotters when the two comprised only 2.156 trotters when the world and the increase in the number of recers. Meeting of the Intercity Interscholastic Com-

mittee. The Intercity Interscholastic Committee held a meeting at Cutler School yesterday afternoon and talked over matters for the annual athletic meet to be held at Berkeley Oval on May 19. The officials have been selected and everything points to a successful meeting. There was considerable discussion in regard to the basketball game between Barnard School of this city and Pratt Institute of Brooklyn. The committee decided that the game should be played if the man agers and captains could agree on the rules. If they agers and captains could agree on the rules. If they should fail the intercity championship will go to Pratt Institute by default. It is not unlikely that Columbia University will give a set of national interscholastic games at Manhattan Fleid on May 30. Manager Sheemaker of the track teams has already applied for a sanction to the local association, and as the Intercity Committee favors the idea, all the associations will follow suit. Manager Shoemaker Intends to limit the contests to sensors within one hundred miles of this city.

The difference of opinion in regard to Coe, the Industrian (Prep. "as to his eligibility in competing

The difference of opinion in regard to Coe, the Princeton "Prep," as to his rligibility in competing in scholastic games has caused much discussion. The statement that he was not a "Prep," but a student in the university, is contradicted in the following letter to THE SUN:

FIGHT PROMOTERS UNEASY.

WITHOUT POLICE BOARD RECEDES BOXING MUST STOP ON MAY 1. O'Rourke Surprised at Turning Down of Sea

Side Club Says if License Is Not Renewed No Other Club Will Get One-Corbett and Jeffries May Meet at Tuckahoe. Unless the Police Board can be won over it is quite likely that the death knell of boxing in Greater New York has been sounded. The refusal of the board to grant to the Sea Side Sporting Club a renewal of its license, which expires on May 1, has assumed a serious aspect and the complacency of those who promote pugilism hereabouts is beginning to become disturbed. When the law against boxing passed the Legislature, which received the indorsement of Gov. Roosevelt, the sports congratulated themselves over the fact that the repeal would not go into effect until Sept. 1. But the chances of public boxing being

cut off in less than two weeks naturally causes a good deal of consternation and comment. The Broadway, Peilcan, National, Greenwood and Hercules clubs are the only organizations now doing business. The Sea Side Sporting Club has been practically closed up the better part of the winter at quite a loss. When Tom O'Rourke and Alec Brown rented the building from Jan. 1 for \$6,000 per annum they little dreamed that their revenue would be cut off so untimely. With the Corbett-Jeffries, Sharkey-McCoy and Ruhlin-Sharkey battles ahead Messrs, O'Rourke and Brown expected to get back their original investment tenfold, and those who know these men the best say it is dollars to cents that they will make a vigorous fight before they give up the ship. Around town yesterday the sports had a lot

to discuss regarding the attitude of the Police Board. Much sympathy was expressed for the club-by-the-sea. Some, though, were happy club-by-the-sea. Some, though, were nappy because they thought that the club deserved what it got, as the impression prevails that the club has been trying to keep the other organizations from doing business.

Bob Fitzsimmons, who gloated over the repeal of the law, seems to be just as happy now that the club has received such a setback. He thinks it will teach certain persons a lesson and in the future they will not be so ready to bar fighters from following their profession honestly. While the war against Fitz was being waged he stuck out for the Westchester A. C. at Tuckahee. The ex-champion said that he would only fight there and that that club was the only real thing in the State. Brady, who does not do anything unless he gives it serious consideration, says that the Westchester Club suits him very well and that Jeffries will fight Corbett there on May 11.

"Should it really pan out that the Sea Side Club cannot get a license," said Brady yesterday, "I will insist on going to Westchester. I don't see why any one can object to the place. There are no chances of police interference. It is also large enough to accommodate a lot of people. I am prepared to give the Sea Side managers a few days in order to make up their mind one way or the other. Jeffries cannot afford to waste any time on uncertainties. We know we can fight at Westchester, while the chances of appearing at Coney Island hangs in the balance. That is the situation exactly, and any fair-minded person can readily understand why we are in favor of the club at Tuckahoe."

"Are you in favor of an earlier date for the battle—thin, is, so far as the Sea Side Club is because they thought that the club deserved

Sea Side Club Will Insist on Tim Hurst as

Referee. Corbett says that Charley White is quite agreeable to him for referee in his coming battle with Jeffries, but O'Rourke declares that if the men want to fight at Coney Island they must consent to Tim Hurst, the official referee of the club. Both Corbett and Jeffries made statements yesterday. Jeffries said:
"If my fight with Corbett cannot be pulled off at Coney Island, I am perfectly willing to go out West, where we can fight without interference. I hate to break up my training now, but I suppose I will have to."
Corbett said: "In order to have my fight with Jeffries decide! I would favor making the date earlier, say, during the last week of this month. I am in good shape and can fight to-morrow, if necessary." they must consent to Tim Hurst, the official

Kid McCoy and Tommy Ryan have agreed to fight again and articles will be drawn up some time this and is eager to have the match settled at once.
McCoy says that he will be glad to fight Ryan again.
McCoy resterday made a match with Jack Bonner.
The pair will box six rounds in Philadelphia on
April 30.

Kid McPartland and Dal Hawkins Matched. Kid McPartland was yesterday matched to meet Dal Hawkins at the Hercules A. C. next Monday night in place of Jack Daly of Wilmington. Daly sent word that he could not be on hand, as he is not feeling well. Hawkins and the Kid will come to-gether for twenty-five rounds at 137 pounds.

Chess.

Manager Libaire was seen by a reporter of THE SUN yesterday respecting the Princeton-Harvard muddle about the selection of the team for the international cable match on next Friday and Saturday. Labaire said that as Friday and Saturday. Libraire said that as Harvard would not obey his instructions as regards the match to be played between Weston, the Princetonian, and Hopkins of Harvard at the Manhattan Chess Club this afternoon he had nothing more to do in the matter. He had simply done his duty, and had requested all the four universities to send their respective representatives to the meeting at the Knicker-bocker A. C. to-morrow afternoon, and then the boys would be at liberty to fight the case out themselves. the boys would be at liberty to fight the case out themselves.

Faulk of Columbia, Libaire understands, is very sick and the chances are that he will not be able to take a board in the contest. Should that be the case the difficulties, Libaire stated, would be overcome at once, as both Hopkins and Weston would be called upon to play in the match.

At the annual spring regatta of Columbia Uni versity yesterday the freshman crew by coming off victors in the two races won the regatta. In the first race against the Juntor crew the Freshmen gained the lead at the start, and maintaining it to the end won handily by two lengths. The second contest between the sophomores and freshmen proved a very hard fought race. First '93 forged ahead, and then '02 was in front. At length the superior blade work of the freshmen overcame the better body swing of the "sophs," and the '03 men won out by a seant few feet.

Cycle Paths on Decoration Day.

The Associated Cycling Clubs of Long Island have decided upon Labor Day for their annual 25-mile road race on the Coney Island cycle path, instead of Decoration Day. The permission to use the paths on Labor Day has been obtained from Park Commissioner Brower, and the fact was reported by George Shannon, chairman of the Race Committee at the monthly meeting of the association on Monday night. The Race Committee as was reported in THE SUN were converted to the idea of holding the race on Decoration Day, but Park Commissioner Brower, while willing to grant a permit for that day counseled against it because he would be unable to afford proper police protection then owing to the police being engaged for extra duty at the Memorial Day parades. On Labor Day the Commissioner said he would guarantee that the cycle paths would be the finest cycle courses in the land, but it might not be possible to have them ready on May 30. These arguments led the committee to change their views and accept the September date.

The Public Action Committee of the Assoclated clubs reported that a committee had been to Albany in the interest of the bill providing for the extension of Bedford avenue to Flatbush and of Remsen avenue to Canarsie, and that the bill had been passed by the Legislature over the veto of Mayor Van Wyck, and that there was every reason to hope that it will become a law, it being now in the hands of Gov. Rooseveit. Richard J. Wolff of the Prospect Wheelmen was elected Treasurer to replace A. Beedle of the Pioneer Wheelmen, who resigned, and George H. Tamlyn men, who resigned, and George H. Tamiya of the Royal Arcanum Wheelmen was elected Second Vice-President to replace Wolff. The Long Island Island City Wheelmen were dropped from the membership list. The Social Intercourse Committee reported that seven clubs have engaged to furnish teams for a baseball tournament, which will be played on Saturdays at Prospect Park, the first game to be on May 30. The clubs to be represented are: Mutual W., Tamaqua W., Twenty-sixth Ward Y. M. C. A. W., Central W., Greater New York W., Nameless W. and Waverly W.

Will H. Brown, who is training at Valley Stream for his 2,000-mile record ride, on which he intends to start May 12, has arranged a run for next Sunday over the triangular course from Valley Stream to Freeport, Hempstead and back that will be in the nature of an informal race, the competitors being teams of four men from a number of the clubs, including the Century Road Club, which will be represented by such well-known record brockers as Charles Mock, C. H. Lehrlitter, Faul Thomas, J. T. Wall, William MacKenzie and others. The Nassau, Jefferson, Greater New York Wheelmen and other clubs will be represented. There will be no entry fee and no prize list. no entry fee and no prize list.

The "bike cops," the hotel men and the observing members of the regular road-riding contingent comment daily in terms expressing surprise on the great number of new riders out and say that their number increases every day. They are in the main a nice lot socially, but they are wabbly and for a few weeks will be the content of the but they are wabbly and for a few weeks will be a source of annoyance and menace to others. Walter Hewlett of the Brooklyn Bicycle Club had an experience with one the other day that was both amusing and costly. He was a stout German of about 40 years, who subsequently confessed that he had learned to ride only a week before. As the clubman was making good time on a light racing wheel the novice suddenly hauled diagonally across his path. The step on the wheel of the German had begun to rip spokes out of the racing wheel, when Hewlett put out his hand and caught the novice by the shoulder. The men went down in a heap. When they arose the German looked at the other as if all the fault was that of the clubman, and exclaimed vehemently: "Vy you don't ring your pell?"

John J. Hazleton and William Plage of the Thistic Wheelmen, Brooklyn, are the two latest candidates for experience as transcontinental tramps awheel. They propose to start on Monday next and try to win a bet by riding across the country to San Francisco. They are to start without a cent in their pockets and work their way. They will start by peddling shoe polish and other small articles to the farmers along the route and as they acquire capital invest in other enterprises.

James Stillman, President of the National City Bank, is a millionaire who has not deserted the bicycle for the automobile. Mr. Stillman is often seen on pleasant afternoon taking short wheeling trips. He rode up Seventh avenue through the Harlem district last Sunday. When at Palm Beach, Fla., recently, he used his bicycle constantly. NOTES.

The spring training season on the local tracks will a transpurated on next Sunday, when the Manhattan Logan Wheelmen have postponed the pro-re eachre party which they were to hold to moreownight.

The Unknown Wheelmen of Brooklyn will have a progressive euchre, followed by a dance at Gates avenue and Broadway on Friday night.

Columbia Will Play a Thanksgiving Day Foot-

Prof. Frederick R. Hutton, chairman of the Faculty Committee on Athletics at Columbia University, announced yesterday that the faculty would withdraw its opposition to a Thanksgiving Day football game because the members were convinced that sentiment unquestionably demonded the contest. To encourage competition for full back, where Columbia was very weak last year. Dr. Reginald H. Sayre, '81, President of the Track Athletic Association and a member of the noted Columbia crew which captured the Henley challenge cup, has donated a silver loving cup for the iongest punt made on May 4 in conjunction with the annual spring games of the university. Collectors in the various classes for the crew reported yesterday afternoon that \$2,084 had been raised, leaving only about \$100 to be collected. This has enabled Dr. Peet to put the coaching launch Columbia in commission and to have necessary repairs made in the barkes Saratoga and New London. In ten days the crews will go on the Hudson and begin rowing in shells. faculty would withdraw its opposition to a

In spite of the consistent play of Charles F. Conklin he was defeated in the play off of the tie to decide the winner of the A. A. U. billiard tournament, which has been in progress for more than a morth at Chi cago. He was beaten by one of the limit men, J. D. Adams, who was handicapped at 225. Conklin was at scratch 300. Adams won by 225 to 232, getting an average of 5 30-39 against Conklin's 5 37-39.

Speedway Course. by a practically unanimous vote in favor of the propmembers attended. The sentiment was strongly in favor of getting out of the present environment of scows and tughoats that render rowing in the vicinity of the boathouse almost an Impossibility. The spot selected is an ideal one, at 158th street on the West chester side of the river, and just above the Central Bridge. It is thought by many oarsmen that the move made by the Nassaus will be followed by an exodus of the other clubs in "Scullers' Row."

It is estimated that the cost of moving the house will be \$6000. President Fred Vilmar, who was in the chair, informed the members that the club finances are in excellent condition, and that the expense of removal will be met without appealing for subscriptions. A permit has already been received to occupy the park and also to build a stairway from the bridge over which the elevated cars run to the boathouse. Work on this will be begun in a week and it is expected that before the season is far under the way the club crews will be located within three blocks of the new Speedway course.

Boston A. A. Flourishing and May Enlarge Its

House. The President's report submitted at the annual meeting of the Boston A. A. on Monday night showed that the past year was the most prosperous in the history of the organization. By cancellation of bonds and renewal of a mortgage at 31/2 per cent. instead of 4 per cent., the yearly interest account was reduced

The membership has reached its limit and the Governing Committee is opposed to any increase at present, but such a move is evidently contemplated in the near future as a four-year lease of the building adjoining the clubhouse has been obtained, with an option of purchase. This step is taken with a view to enlargement of the clubhouse at an estimated cost of \$150,000.

The indebtedness of the club is \$77,500, a reduction of \$72,500 from the original bond issue. The popularity of the organization is shown by the fact that during January 81 per cent. of the members had monthly bills running. The following were elected on the Governing Committee: J. Q. Shaw, Jr., N. G. Horton, Arthur E. Davis, John H. Burke and George C. Alnsworth.
